Profile

As a Dedicated and skilled Flutter developer with a passion for creating dynamic, user-friendly mobile applications. Proficient in Dart programming language, I specialize in crafting seamless and visually appealing cross-platform solutions, with a solid foundation in front-end technologies such as HTML, CSS, and JavaScript, I bring a comprehensive skill set to the development process. I am eager to contribute my expertise to create cutting-edge mobile applications.

Professional Experience

Intern - Mobile App Developer, *Aspira System*   07/2023 – present | Remote
- Actively engaged in a comprehensive learning experience while pursuing coursework in Aspira System, gaining proficiency in a wide range of technologies including HTML, CSS, JavaScript, Bootstrap, Git, MySQL, OOP, Flutter, Dart, and Firebase.
- Acquired practical experience in front-end development by creating visually appealing and user-friendly interfaces for various projects, including a quiz app, weather forecast app, to-do list app, and a Task Manager app, using Flutter.
- Demonstrated experience in mobile app development, implementing responsive and dynamic features through the utilization of Flutter and Dart.
- Embraced Object-Oriented Programming principles to enhance code modularity, maintainability, and scalability.
- Successfully integrated Firebase for backend development, incorporating cloud-based services to enhance app functionality and user experience.
- Completed projects within specified timelines, demonstrating a commitment to delivering high-quality solutions.
- Regularly engaged in knowledge-sharing sessions with team members, fostering a collaborative and innovative work environment.

Associate, *ReSource Pro Operational Solution Pvt Ltd*   11/2021 – 06/2023 | Bangalore, India
- Proficiently orchestrated task prioritization, systematically selecting and organizing assignments based on their criticality.
- Demonstrated expertise in managing data processes across diverse platforms, including Epic, BP Manual, and BP Import systems.
- Executed data transfer with precision, uploading essential details into EPIC software and updating the BP website in strict adherence to data integrity and compliance standards.
- Applied advanced Excel skills for in-depth data analysis and reporting, significantly improving overall operational efficiency.
- Proactively trained colleague, imparting knowledge on task management, Conducted regular audits on junior staff tasks.
- Collaborated effectively with cross-functional teams. Played a pivotal role in optimizing workflow efficiency by proactively identifying opportunities for process improvement.

Education

B.Sc in Computer Science, *Mazharul Uloom College*   2018 – 2021 | Ambur, India

Skills

Flutter with Dart   Firebase   GIT   MySQL   HTML   CSS   Javascript

Bootstrap

Projects

Personal Budget Tracker App, *Flutter Tech* ⧉   12/2023 – 12/2023
- Implemented a dynamic pie chart for users to easily track and visualize income, expenses, and available funds.
- Enabled users to add funds to their wallet, make secure payments, and view a clear transaction history for better financial control.
- Ensured a responsive design for various devices and implemented robust security measures to protect user financial data.

Covid Case Tracker App, *Flutter Tech* ⧉   11/2023 – 12/2023
- Implemented a robust system to fetch and update live COVID-19 data from reputable sources, ensuring users receive up-to-date and accurate information.
- Implemented a feature that allows users to drill down into specific countries, providing detailed statistics on the COVID-19 situation in each region, fostering a deeper understanding of the global impact.
- Designed an intuitive and user-friendly interface for easy navigation and accessibility, allowing users to effortlessly explore and understand the pandemic's impact globally.

Travel Planning App, *Flutter Tech* ⧉   11/2023 – 12/2023
- Developed a dynamic travel planning application using Flutter, allowing users to seamlessly organize and document their trips.
- Enabled users to input key details such as departure and end dates, origin and destination locations, and personal notes explaining the purpose of the trip.
- Implemented an intuitive calendar module that automatically highlights travel dates, providing users with a visual overview of their plans.

Task Manager App, *Flutter Tech* ⧉   11/2023 – 11/2023
- A fully functional CRUD system, enabling users to seamlessly Create, Read, Update, and Delete tasks within the application.
- Designed an intuitive and user-friendly interface, facilitating an efficient and enjoyable task management experience.
- Implemented a dynamic "Complete" checkbox feature, allowing users to mark tasks as completed. Once checked, tasks are automatically moved to a dedicated "Completed Tasks" page, enhancing organizational efficiency.

Portfolio ⧉   09/2023 – 09/2023
- Created a visually appealing and responsive portfolio website, ensuring a seamless user experience across various devices and screen sizes.
- Implemented interactive elements using JavaScript to enhance user engagement, such as dynamic animations, smooth scrolling, and modal pop-ups for project details.
- Showcased various projects, which highlighted technical skills and achievements.

Certificates

Web Development ⧉   **Flutter with Dart**
I have completed course, covering HTML, CSS &   Completed Flutter with Dart course, gaining
Javascript   expertise in cross-platform mobile app
                                          development.
